

Technical Bulletin

Two & Three Function Pressure Relief and Flow Control Valves

The Two and Three Function Pressure Relief and Flow Control Valves have been updated with a new valve cartridge. The new valve cartridge improves the pressure and flow control function of valve assembly.

Replace the end valve cartridge with new cartridge 6048960. The new valve cartridge is fully interchangeable with the cavity for the old cartridge.

The following Valve Assembly part numbers are affected. If the stamped revision level is higher than listed below, the Valve is not affected by this change.

Two Function Valve Assemblies

233037-R0
233332-R0
233333-R0
233334-R0
233337-R4
6031171-R0
6036088-R0
6043853-R0

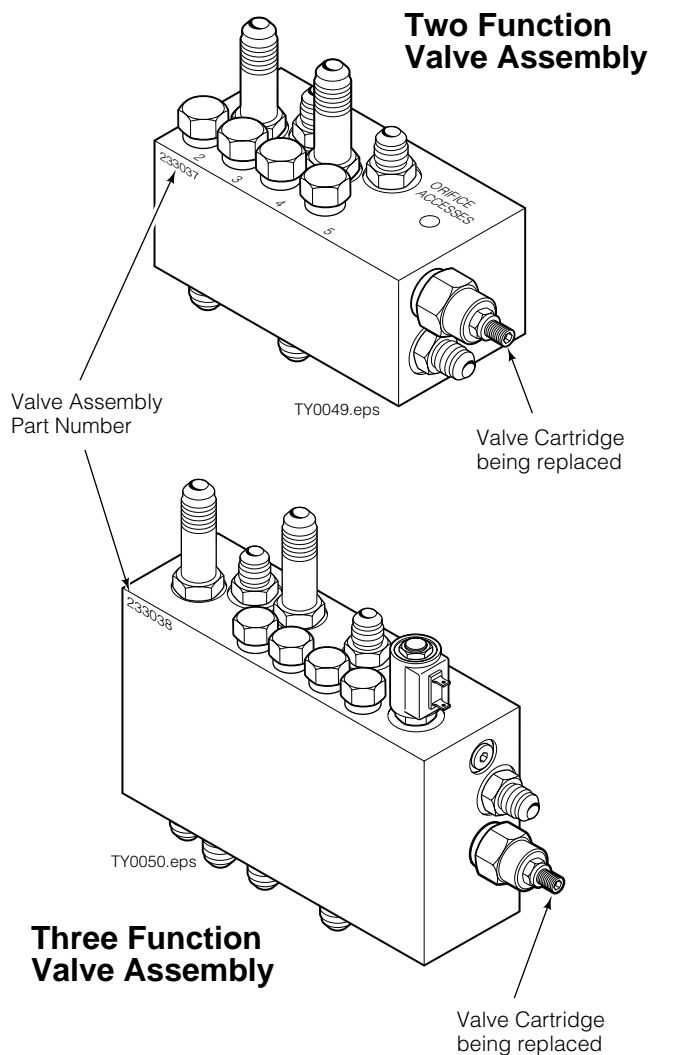

Three Function Valve Assemblies

233038-R4
6033256-R0
6033904-R0

Valve Assembly Kits

233095
233122
233339
233342

For help implementing this change, contact a Cascade Service Representative at the phone number listed below. When contacting Cascade, you will need the **Valve Assembly Part Number** stamped on the side of the valve body.

NOTE: This information should not be interpreted as the basis for warranty claims unless so designated.
