OR

Write: Cascade Corporation, P.O. Box 20187, Portland, OR 97220

# INSPECTION & MAINTENANCE

**WARNING:** After completing any service procedure, always test the sideshifter through five complete cycles. First test with no load, then test with a load to make sure the attachment operates correctly before returning it to the job.

## Daily

Check items shown each day. Report problems to your supervisor. See Service Manual for maintenance and repair procedures.

## 100-Hour

Every time the lift truck is serviced or every 100 hours of truck operation, whichever comes first, complete the following maintenance procedures:

- Check for loose or missing bolts, worn or damaged hoses, hydraulic leaks, and damaged or missing fork stops.
- Inspect clearance between sideshifter lower hooks and truck lower carriage bar (Refer to Step 4, Installation). Tighten lower hook capscrews to 120 ft.-lbs (165 Nm).

## 500-Hour

After each 500 hours of truck operation, in addition to the 100-hour maintenance, perform the following procedures:

- Tighten backrest capscrews (Cascade) to 145 ft.-lbs. (195 Nm).
- Apply general-purpose lithium-based chassis grease to Sideshifter upper and lower bearings.

## 1000-Hour

After each 1000 hours of truck operation, in addition to the 100 and 500-hour maintenance, perform the following procedures:

- Inspect upper and lower bearings for wear. If any bearing is worn to less than 3/32 in. (2.5 mm) thickness, replace the entire bearing set. See Service Manual for replacement procedure.
- Inspect forks for wear (Use Cascade fork bar wear gauge 209560 and fork wear calipers 686093).

# PARTS

**Product Identification** – This Section shows replacement parts for F-Series Sideshifters. The product model number and serial number are stamped on the back surface of the LH vertical bar (driver's view), and must be provided when ordering replacement parts. The cylinder/anchor bracket assembly part number is stamped on the front surface RH end of the anchor bracket (driver's view).

**WARNING:** For the safety of yourself and others, DO NOT install the parts shown in this Manual unless you have thoroughly reviewed the appropriate Service Manual.

Stamped model number, serial number, specifications.

Sticker showing patent numbers, phone numbers for service.
