

# Installation Instructions

## Bin Retainer for Rotating Attachments

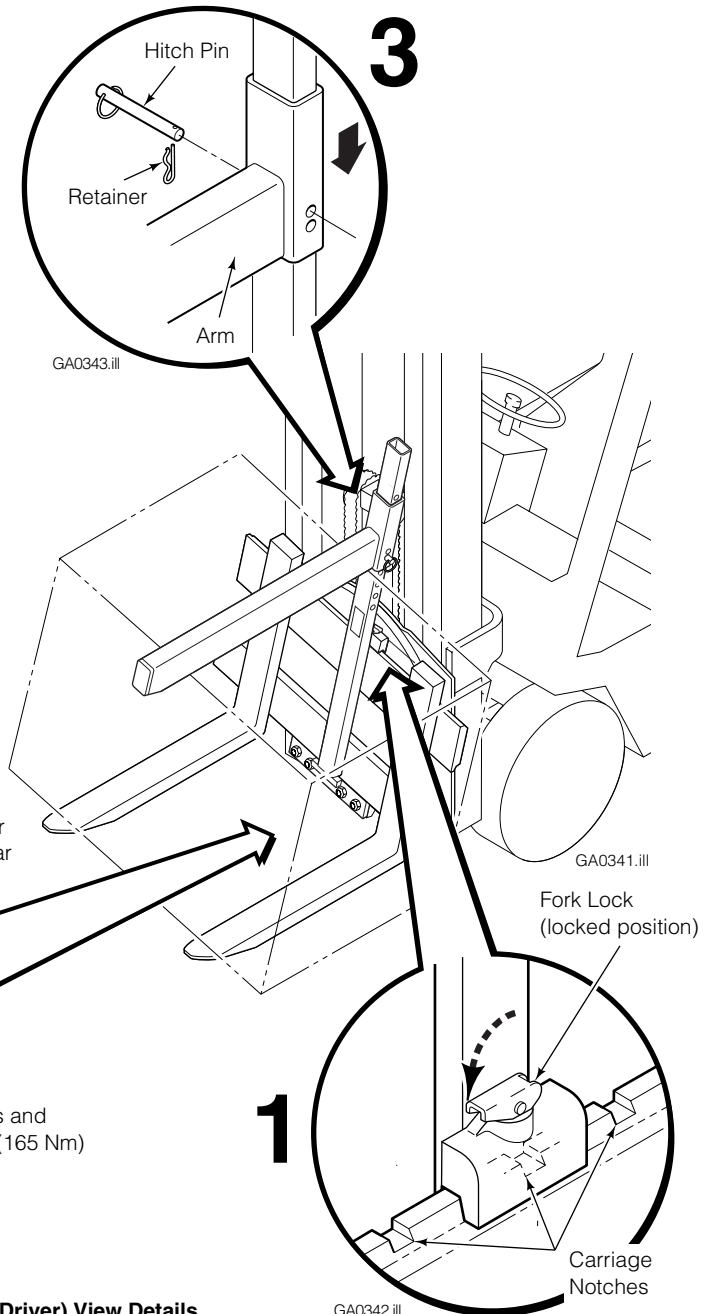

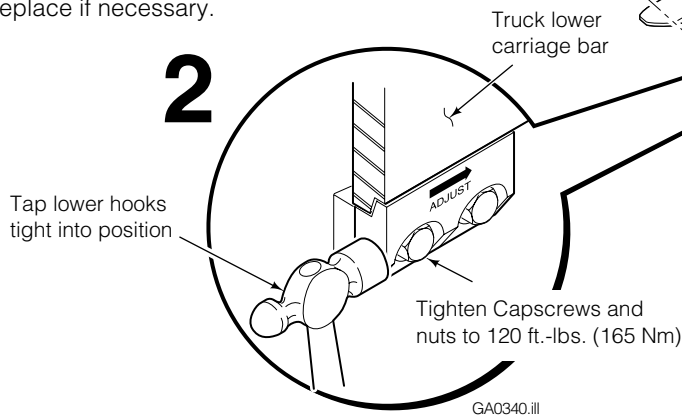

This sheet provides installation instructions for a Bin Retainer that mounts on CL II truck carriages (16 in. height) using upper and lower mounting hooks.

- 1 Remove lower hooks and hang the Bin Retainer support on the top carriage bar. Center the support and assure that the fork lock properly engages a carriage notch.

**WARNING:** Fork lock must be properly engaged in a servicable carriage notch for safe operation. Repair any damaged carriage notches before installing Bin Retainer.

- 2 Install lower hooks using the capscrews, washers and nuts supplied. Tap hooks tight into position and tighten the capscrews to 120 ft.-lbs. (165 Nm). **IMPORTANT:** Install hardened washer under head of capscrew.
- 3 Install hold-down bar.  
**To adjust hold-down bar:** Lower bar onto top of bin. Raise bar to next pin hole and insert hitch pin. Assure that retainer clip secures pin in hole.
- 4 **Periodic Maintenance (every 100 hours of use):**
  - Tighten lower hook capscrews to 120 ft.-lbs. (165 Nm).
  - Inspect hold-down bar hitch pin and retaining clip for wear or damage. Replace if necessary.
  - Inspect fork lock mechanism for wear or damage. Replace if necessary.

Part No. 6038815
